

JANET'S WONDERLAND

THE WAY

THIS WAY

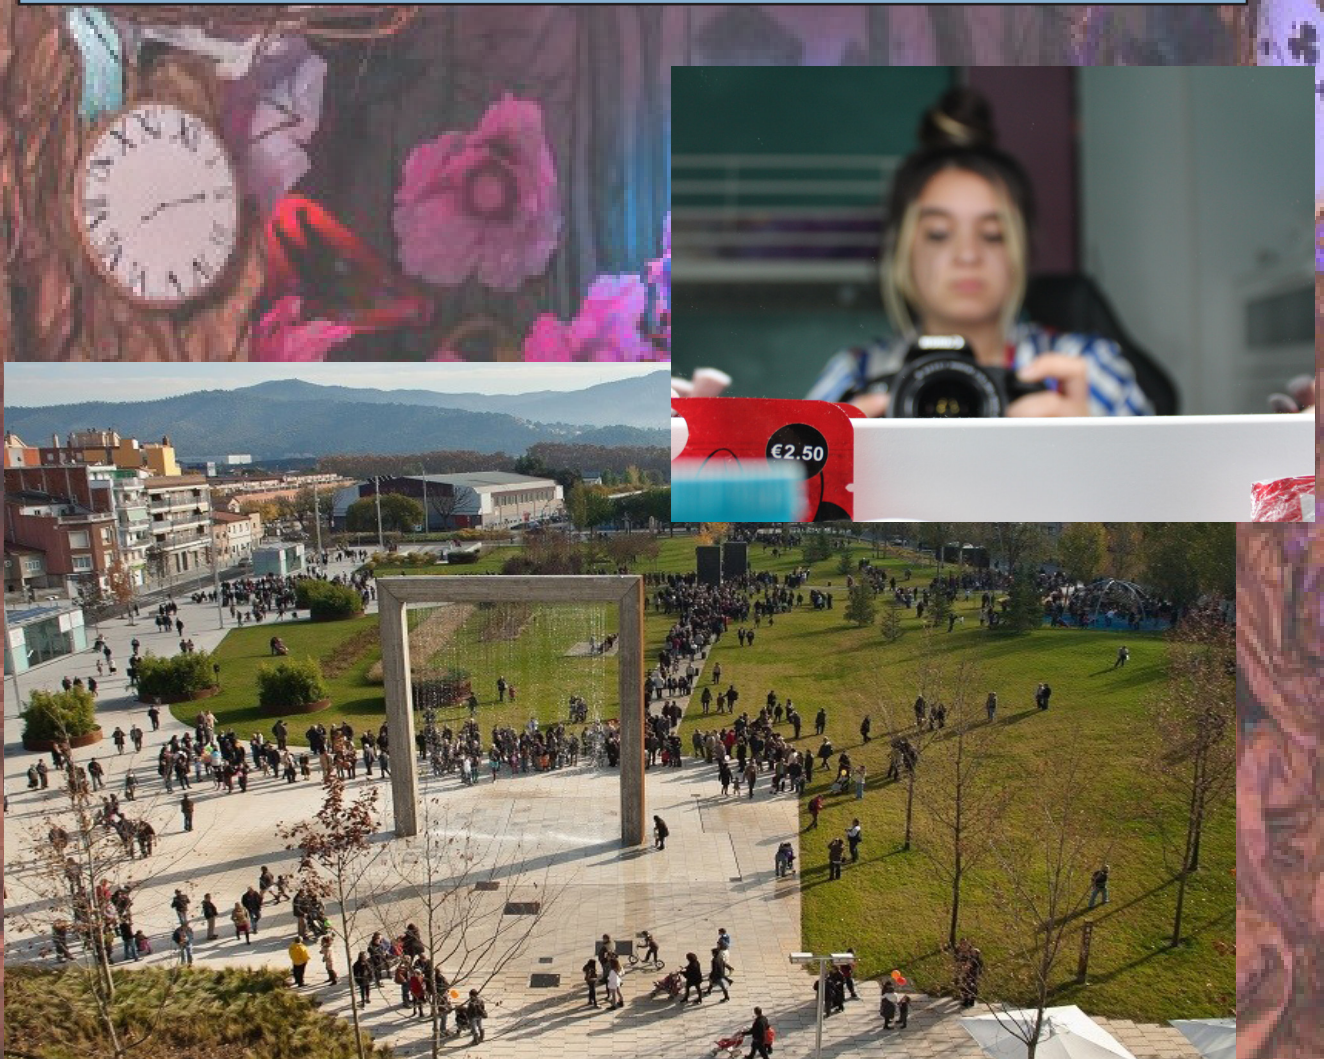

WRONG WAY

GO BACK

TEA PARTY

Intro:

Hi, my name is Janet. I born the 4th of october in a city named Mollet del Vallés. My desire is to show my vision of the world through art.

Studies:

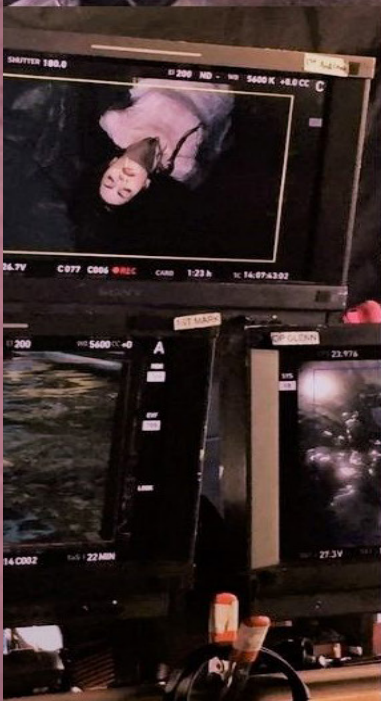

I studied at a private school in my city called Lestonnac. I studied there until I finished **ESO**. After that I went to Barcelona to study photography and editing.

Following studies:

So far I haven't really thought about where I'd like to go. I would like to learn how to edit videos and music. So maybe I'll end up studying audiovisuals or something like that. Although 3D programming and design also catches my attention.

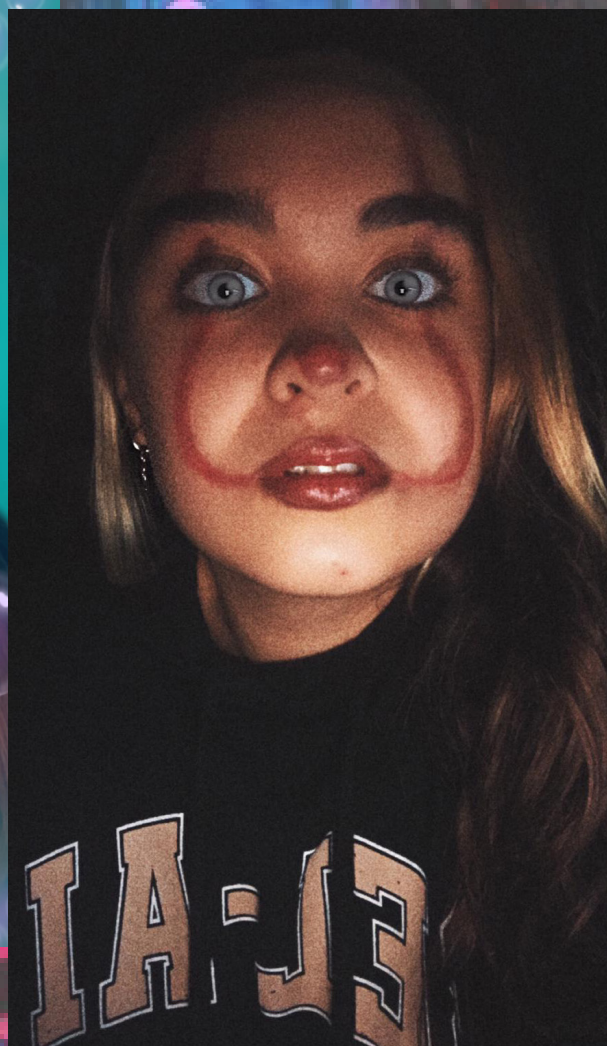

music: O
world: O

Dreams:

My dream was always to do something artistic, I never thought about it, since the field of art is very extensive and I like all types of art, although I always saw myself more focused in relation to video and music, something like a video clip. I never really thought about the result. Only that it had music (it would be a lot to dream, but I wish I could be my own and translate that music into something more visual such as a video or a photo.

Future:

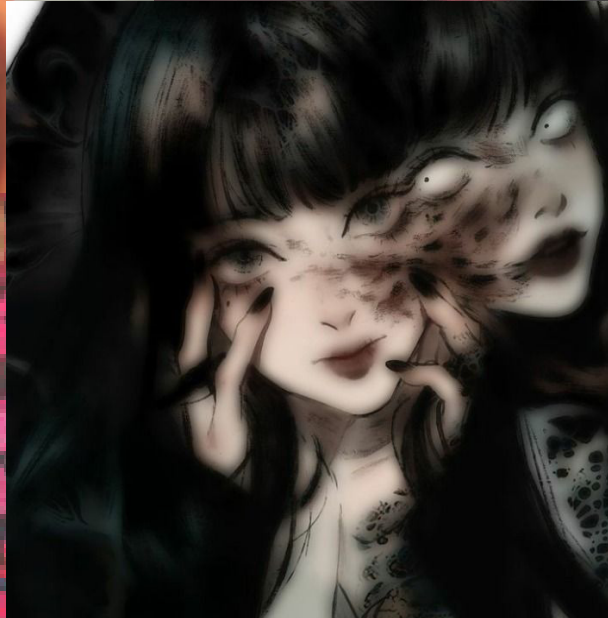

In the future I would like to work for large entertainment companies. If it is that I end up pulling at first for audiovisuals. Because as I said before, I like all the arts and maybe over time I'll end up wanting to work on something else.

Habilities:

I'm not bad at English, although like drawing I wouldn't say I stand out for it. I'm also good at crafts of all kinds, I'm not bad at editing either, capturing or at least trying my point of view of the world through photography. But I think that if I had to say something in which I stand out, it would undoubtedly be my imagination, I have always been told that I have many ideas in terms of executing artistic projects, or they don't have to be.

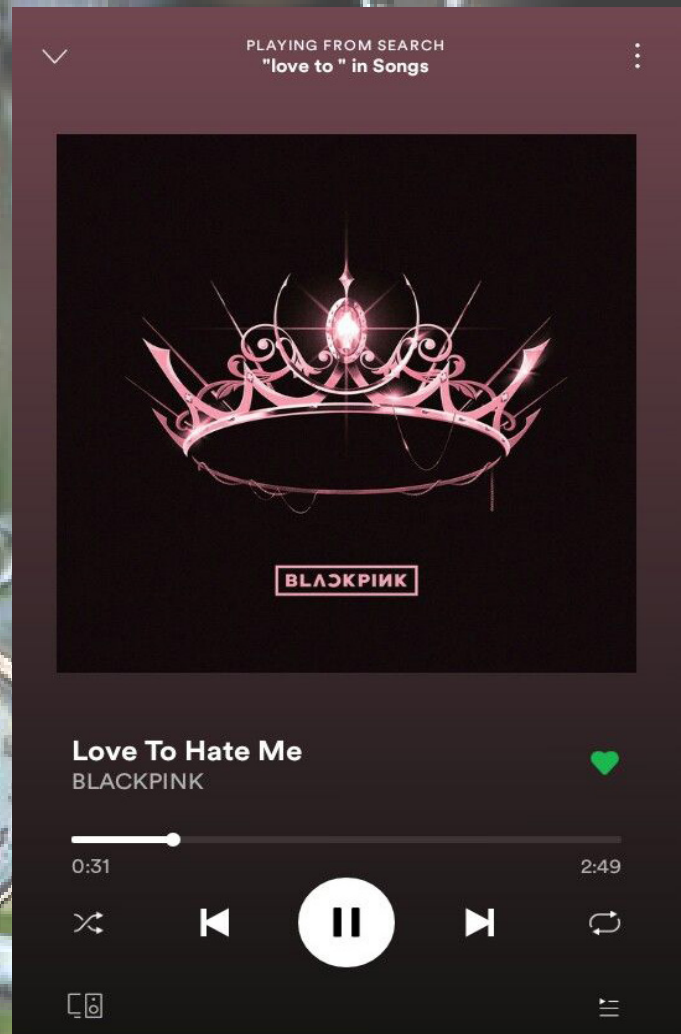

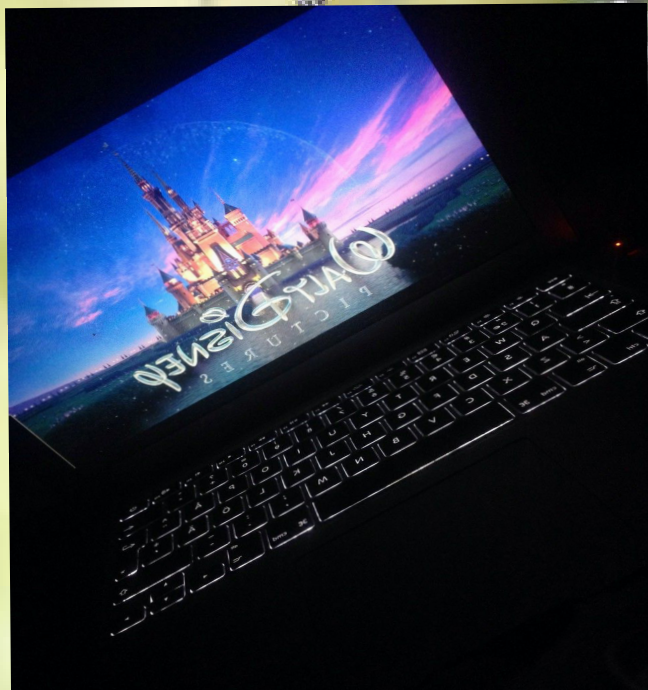

That and give a lot of thought to something make the typical list of pros and cons. That is, be indecisive. In the long run, thinking about something a lot, I suppose you will end up with the best solution.

Likes:

I'm not very into sports, but I do like some sports like skiing, snowboarding, dancing and roller skating or rollerblading.

In music I think my most influential genres would be pop and k-pop. Although I'm not saying that I don't like other genres like Rap, R&B, rock among others.

As for entertainment there, yes, it could be said that I like it varied. I don't have a series or movie genre that appeals to me more than the rest, in itself I think that they all appeal to me equally.

THAT WAY

THE END
